

# 81 TRW Input

*The Training Standard of Excellence*

## **POSITIVES**

- Diversity / Respect – Current cultural trends appear to be more welcoming of embracing diversity and being respectful.
- Motivation – Airmen are coming to the Tech School motivated to learn.

## **CHALLENGES**

- Email accounts not active – Common Access Cards (CACs) are not fully provisioned, cloud configuration issue out of Lackland, AFB.
- CATM at BMT – Having CATM requirement passed to the Tech School has caused delays in PCSs due to bottlenecks.
- PT – We have received multiple Airmen with failed components on the PFA, and they arrived without their records uploaded to AFFMSII.
- Military Cultural Awareness – Even post-BMT, some Airmen don't fully grasp the commitment to the Military Mission (not a 9-5 job). They are not aware of AFI and other guidance documents for reference. (Example: Dress and Appearance, Customs and Courtesies, and Chain of Command structure)
