What is a TTG/Goal

- A Technical Training Graduate (TTG) is an enlisted Non-prior service pipeline student who completes an AFSC training course (3 level awarding)
- Our goal is to distribute available TTGs to the MAJCOMs & first permanent party duty station on an equal basis
- Provide guidance to:
 - BMT
 - Technical Training centers
 - Assignment NCOs
 - FAMs
 - 2AF

Assignment Cycle

- **Weekly TTG Assignment Cycle**
 - **Begins on Monday and ends on Thursday**
 - **No cycle if Monday is a holiday**
 - **Pull into the cycle the week after CSD**
 - **CAFSC and course info must be updated correctly**
 - **Students are assigned a SEQ ID**
- **Assignment match day is every Thursday**
 - **A SSN is assigned to the SEQ ID**
 - **Assignment loaded in MilPDS**
 - **RNLTDs are based upon CGD +30 days for CONUS; CGD+45 days for OCONUS**
- **For certain AFSCs, the TTG exception table blocks assignment loads until after a student starts a certain phase in their training (CFM and/or FAM request)**

Hand Match Roster

- Some students require manual assignment loads due to various reasons
 - Identified on the hand match roster with remarks listed
