**JOINT BASE SAN ANTONIO-
LACKLAND, Texas** - The Basic Expeditionary Airman Skills Training's (BEAST) Mask Confidence Training Facility reopened Aug. 15, 2022, here at the Chapman Training Annex, for basic military training trainees.

The "gas chamber" training falls under the Chemical, Biological, Radiological, and Nuclear (CBRN) Defense Course and trainees go through the training during week four of BMT. Initially, the facility closed in April 2020 due to COVID-19, but sustained storm damage from Winter Storm Uri in February 2021, postponing its reopening. The brand new facility arrived at Chapman Annex last month and the 324th Training Squadron was the first squadron to train in the facility. Check out some of the great photos [here](#).

Upcoming:

26 Aug: SSgt Release Social

26 Aug: AMIGO Social

1 Sept: Warhawk Coffee Tawk

5 Sept: Labor Day

7-8 Sept: AETC/CC Civic Leader

DoD releases first departmental Social Media Policy

by Patrick Buffet

Story by Todd Lopez, DoD News

WASHINGTON, D.C. -- The Defense Department today released a policy that for the first time spells out, from the highest levels of the defense community, how DOD military and civilian personnel should use official social media accounts to best advance the mission of the U.S. military and further instill trust in the credibility of the DOD.

DOD Instruction 5400.17, titled "Official Use of Social Media for Public Affairs Purposes," provides principles for social media use within DOD, direction regarding records management procedures for social media accounts, and guidance to ensure personal social media accounts are not misrepresented or misinterpreted as official accounts.

While some of the military services and other agencies published social media policies years ago, DODI 5400.17 is the department's first instruction that provided Pentagon-level, departmentwide guidance that specifically addresses the use of social media.
