PUBLIC AFFAIRS

**Q: There is an abandoned vehicle in the flagpole parking lot at DLIELC across the street from the Chapperell gym with a flat tire and a Texas registration sticker from January 2019. The vehicle should be removed.**

**A:** Thank you for bringing this to our attention, the proper authorities will be notified.

**Q: What is being done about the number of scammers that comment on the BMT graduation live-stream?**

**A:** We are very aware of the scammers and have a team of professionals who are furiously working each live-stream to keep the scammers at bay. This is becoming a problem across the Air Force on live-streams. Some of the challenges lie within the platform itself but we are exploring options to reduce the number of scammers. I'd just like to emphasize that no one should ever have to pay to watch one of our graduations. If you have connections with any of the parent groups of current trainees, help us spread the word to let them know that they should never fall victim to one of these scammers.

**Q: Has a 37 TRW app been discussed to distribute information quicker? Many bases use AF Connect to link all their apps.**

**A:** Yes, Public Affairs is in the process of building the 37 TRW section of the AF connect app. We anticipate it will launch in March.
